

## Network Checklist

Amusement Connect systems, and various other Card Systems require a stable Internet connection(QoS). We recommend a minimum download speed of **50~100 mb/s**. Our upload speed minimum requirement is **25~50 mb/s**

Q: Does your router have available ports?

A: **(Yes/No/Unsure)**

### **Internet Service Provider:**

Please state below the name of your internet service provider:

ex: Cox, ATT, Comcast, Verizon, etc..

### **ISP:**

What is your current internet speed. To find out contact your ISP, or from your location please visit: <https://speedtest.net> . Record your results below.

### **Download Speed:**

### **Upload:**

### **Router/Firewall Information:**

Typically Cici's locations have Mako's

Ex: The M model has cell back-up and 4 network ports, the E model has 2, and no cell-backup

### **Model #:**

### **Switch Information:**

Does your existing network support the addition of necessary devices: AP's, Kiosk(s), Redemption Counter

Recommended switches - Ubiquiti 8-24 Port Switches - Consult with CICI's IT for additional questions

Q: Is/are your network Switch(s) managed or unmanaged?

A: **(Yes/No/Unsure)**

Q: Does your switch have available ports? Most systems require 2 ports.

A: **(Yes/No/Unsure)**

### **Switch Model:**

### **Available Switch Ports:**
